Hello!

It's back to school time! I truly hope you had a wonderful summer and are excited to come back to school. Fourth grade is an awesome year and no doubt full of wonderful learning experiences. This will be a great school year! 😊

Fourth grade is an exciting and monumental year for students! The gains they make in learning are significant and tremendous. One big change in fourth grade is the transition from learning-to-read to reading-to-learn. We will read more complex text in depth to analyze and to learn information. Students will use evidence from the text to support their reasoning, use inferences to make meaning, and analyze main ideas and supporting details. Math is also a big change. Multiplication and division becomes more complex in fourth grade. Students will encounter 2-digit by 2-digit multiplication problems and solve long division. Please practice math facts before school begins to retain and strengthen that knowledge base; students who still struggle with recalling math facts will have a more difficult time solving those longer and complex problems.

Again, it will be an exciting year at Sunrise Elementary this year. I am eager to embark on this new school year and am delighted to be working with your child! I look forward to meeting you all soon!

The donation/supply list can be found on our school website under 4th grade. 😊

Sincerely,
Miss Carter
