“Librarian’s Minute”

Cache County School District is purchasing a large number of Ebooks to be added to its online library, <https://soraapp.com/home>. It works just like a regular library where kids can check out Ebooks or audiobooks. There are even a few read along books. In library this week we will be showing the kids how to use Sora. The website is really easy to navigate. All they need is their school username and password to be able to access it. Remind them to take AR quizzes when they are finished reading a book. This year, we have a new reading incentive program, Dragon's Quest. The kids seem really excited about it. They earn points for the books that they take quizzes on. Attached is a paper that explains the requirements, prizes, and reward dates.

Happy reading!
