Better Together is a family education and activity program at The Family Place. It provides positive interaction opportunities for parents and children as well as information about child development and the impact of trauma on children for parents. It is designed for families who have experienced trauma, although any interested families are eligible to attend. It is a free, 12-week course. Six of the classes will be Zoom classes where families and the instructors meet together. Families are provided with dinner on all 6 of these class nights. Following dinner, we spend 15 minutes completing a mindfulness activity and practicing emotion regulation techniques and skills. Following that, the family has about an hour to participate in developmentally engaging and appropriate activities together. Classes are available for 4 age groups: 0-2-years-old, 3-5-years-old, 6-11-years-old and 12-18-years-old. During the other 6 weeks, parents are provided information about development and the impact of trauma on development as well as practical suggestions for supporting healthy development.
