

## Better Together

[Verse 1:]

Good day, sun is shining bright  
Today's a page in the story we write  
It's a quest we're on in dreams we share  
Today's adventure's up in the air

[Chorus:]

Better together you and me  
Stronger as one, yeah that's the key  
Treasures to find, work we can do  
Best united, me and you

[Verse 2:]

Future so bright we need some shades  
We're stepping it up to a higher grade  
Show us a problem we'll work it through  
We'll stick it out like glitter to glue

[Chorus:]

Better together you and me  
Stronger as one, yeah that's the key  
Treasures to find, work we can do  
Best united, me and you

[Bridge:]

Can't divide us, we stand as one  
Learning, laughing, having fun  
From 123 into infinity  
We're on our way in unity

[Chorus/Bridge together]

Better together you and me  
Stronger as one yeah that's the key  
Hand in hand we're wild and free  
Better together we will be

Better together you and me
