¡BIENVENIDOS AL 6º GRADO!

I can't wait to make great memories and share the Latin culture and experience with my students and their families. In my class, we'll use our Spanish in 3 subjects: Literature, History, and Science. However, my favorite is Science where students will be able to develop a hypothesis and put it to the test. We'll do experiments and have fun while we are learning. We'll also read books in Spanish as a class! We will have cultural days to learn about a Spanish-speaking country and taste delicious food. Enjoy your summer and be ready to learn in the fall.

"Knowledge is of no value unless it's put into practice" - Anton Chekhov

Ideas on how to keep up with your Spanish over the summer

- Read a book
- Duolingo
- Talk to a friend/classmate/sibling
- Write daily in your journal
- Write short stories
- Learn one new word each day
