

# Welcome

Hello! I am so excited to have you in my class! Let me tell you a little about myself. I am married and have 4 kids, a daughter-in-law, and a dog. I love spending time with my family...especially when we get to travel! I love to go road biking and for lots of walks. I love to READ READ READ and one of my favorite things to do is to go to the library and check out a huge pile of books. Historical Fiction is my favorite. I love teaching first graders and have been doing that for 6 years!

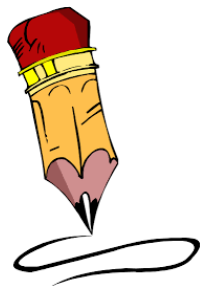

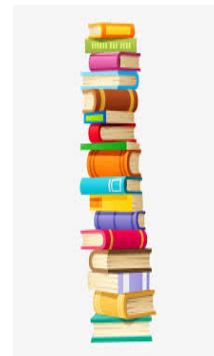

# #fabulous first grade

In first grade we do a lot of learning!

We learn to read and then we read a lot!

We learn to take quizzes, we do reading groups every day, we read to learn, the teacher reads books aloud and we learn new vocabulary!

We also learn how to write! We work on beautiful handwriting, how to write a sentence, a letter and even paragraphs!

We learn about math...how to add, subtract, group, and compare numbers! We learn how to tell time and how to measure. We even learn about 2 and 3 dimensional shapes!

We will learn about Astronomy, Animals and their habitats, Sound and Light, Plants and Community helpers, maps, symbols and so much more!

All of this and even more...including 3 recesses a day!  
First grade is the best and I can't wait to spend next year with you!  
-Mrs. Budge
