

## Logan City School District Policy and Procedures

### **Siblings riding with their qualified sibling on Special Needs Bus**

Special Needs Buses provides services for qualified Special Education or 504 students. We realize at times it is a great benefit for a qualified rider to have a sibling (or siblings) on the Special Needs bus with them. Prior approval from the IEP team and the District Transportation Department is required for a sibling(s) to ride the Special Needs bus with another qualified member of their immediate family. The decisions to allow a sibling to ride a bus will be made on a case by case basis looking at the *needs of the qualified rider*. If a sibling is approved, they are to be on time, and follow the driver's and attendant's instructions. This approval may be denied or revoked as conditions change on the bus (e.g. seats are needed for qualified riders) **or** if a sibling fails to follow the bus rules, policies, or procedures. If the qualified student is not riding the bus, their sibling(s) will not be picked up or taken home by the Special Needs bus. Siblings cannot displace any qualified rider.
