

School Land Trust Summary Report

Millville Elementary received \$22,625 from the school land trust fund for the 2014-15 school year. This money was spent at our school to hire a reading aide to help with our small group instruction. We also used some of this money to purchase Chromebooks. These Chromebooks are mini laptops that are for student use. The Chromebooks are stored in a charging cart that can be moved from classroom to classroom. This mobile lab allows students more time to write using a keyboard. State testing can also be completed on these devices and students can use them for research. If you have questions about the school land trust program the full report can be found at www.schoollandtrust.org
